Speaker Sketches: Visual Content Capture for Your Next Event

MEET WES

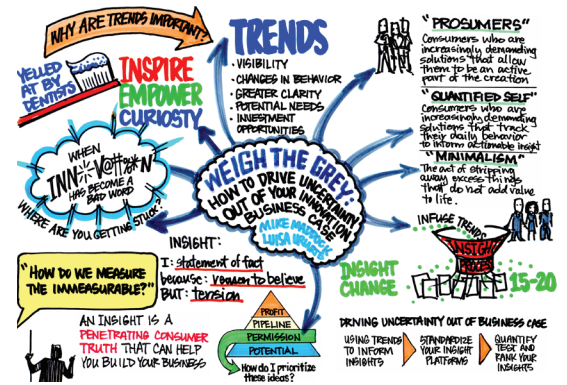

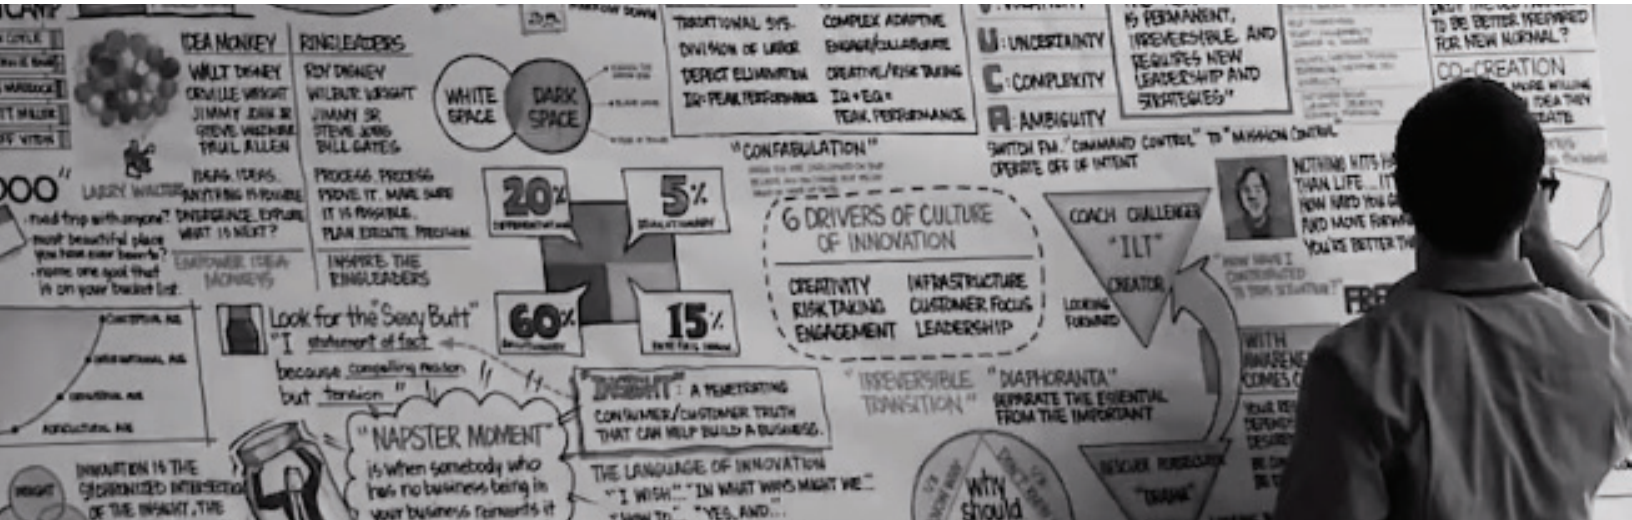

Wes Douglas has been sketching for over 30 years. Through the use of expressive handwriting, images and diagrams, his Maddock Douglas Speaker Sketches bring your conferences, seminars, internal planning meetings and webinars to life. His creative, hand-drawn visual recordings help your team better recall the important tools and processes shared at your event. He participates in Maddock Douglas workshops, keynote speaking engagements and hosts his own classes.

What a fabulous way to capture the essence of our presentation at The Market Research Event (TMRE)! Blown away!

— Emily Adkison, 1st Senior Manager - Insights & Planning at Kellogg Company
